

AquaFlex

Stand-alone Aquaculture Housing

The AquaFlex rack by Aquaneering is an ideal housing solution for a variety of aquatic species. Whether your research is with cavefish, killifish, lamprey, marine invertebrates or a wide range of other research models, we provide flexible housing solution to meet these varying needs.

- 3-shelf standalone rack
- Available with glass or plastic tanks
- Can be integrated as multi-rack systems supported by a centralized filtration package.
- Biological filtration via maintenance free fluidized bed bio-filter ensuring zero ammonia presence
- 24-hour technical support, online store for ordering supplies, and flexible preventative maintenance contracts

AQUANEERING

INCORPORATED

Superior Water Quality. Because your research depends on it.

The AquaFlex rack is a single-rack holding system with recirculating filtration that can house a wide variety of aquatic species. These systems feature a new valve style, stainless steel UV, and a powder coated finish for our 316 steel rack frame. Our fluidized bed bio-filter technology ensures superior water quality conditions including zero ammonia and nitrite levels, making sure your fish thrive in a healthy tank environment.

Product add-ons:

Add-on	Details
Individual Tank Aeration	Aeration for individual tanks is available.
